

BUSINESS RESEARCH CONSULTANT

Andersons Business Research is a leader in agricultural policy and profitability analysis. We supply information services to corporate, professional, government and farmer clients.

We require a consultant to join our growing team based in Melton Mowbray to develop the business and to undertake economic research projects, corporate consultancy and the interpretation of policy change.

The successful candidate will have;

- A degree in agriculture, agricultural economics or related subject
- An interest in agricultural policy, farm economics and rural affairs
- Excellent writing and presentational skills
- A thorough grasp of data analysis
